

*Juvenile 2025/26*

*Let's live this journey  
the way you love the most.*

Becoming parents is *something unique to  
live and love every day.*

*In us you will always find an ally,* but you  
will add the secret ingredient.

Your journey begin and we are happy to do it  
together.

*Chicco. Live it. Love it.*

We *empower parents* every step of the way with *innovative solutions designed for their children's well-being*

*With babies since 1958*

We are present in *over 120 countries worldwide*

Our *Research Center* is dedicated to the study and understanding of *children and their needs, collaborating with experts from the medical-scientific world and dialoguing with parents*

If *little ones* could choose,  
they would *choose Chicco*.

*Smart design* that combines beauty, practicality,  
safety and fun, offering *quality products*,  
*through every stage of growth*.

Designed  
for *well being*,  
engineered for *safety*

Effortless style,  
*on the go*

Designed to keep  
*you feeling home*

# CAR SAFETY

The use of a car seat from the very first trip is the only way to truly protect your child! Chicco develops a wide range of car seats, following the European regulation ECE R 129, to meet the needs of both children and parents at every stage of the child's growth - from birth up to 150 cm (around 12 years).

Only from 150 cm does the law allow a child to travel in the car without a car seat, using only the vehicle's seat belt like an adult.

## A few things to keep in mind:

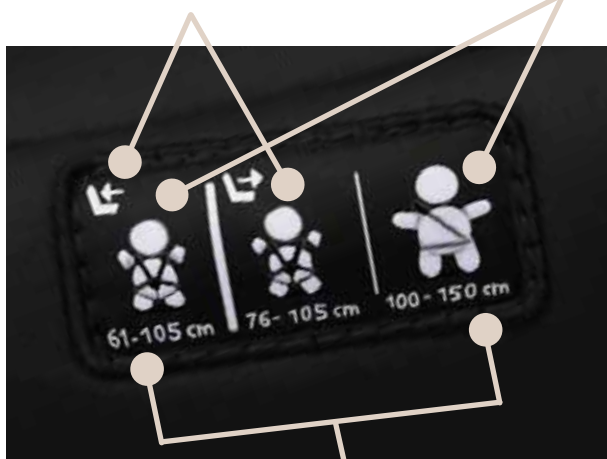

1. It's important that a car seat is homologated. After a transition period, it is now only possible to homologate and sell car seats that comply with the European regulation ECE R 129 (i-Size).
2. According to ECE R 129 regulation, car seats are classified based on the child's height (cm). For certain configurations, it is also necessary to consider the child's weight. This information is available on the product and in the user manual. Note: age is always indicative. The choice must be based on the child's height as indicated on the homologation label.
3. According to this regulation, a child may travel in a car seat restrained with the vehicle belt only from 100 cm in height (not before). 100 cm corresponds to around 3 years of age.
4. Below 100 cm, the child must be restrained by a 5-point harness system (integrated into the car seat). The car seat should be secured to the vehicle using one of the following systems:
  - a. Isofix and top tether;
  - b. Isofix and support leg;
  - c. Vehicle belt.
5. Forward-facing travel is only allowed from 15 months. Until then, rear-facing is mandatory to better protect the child's delicate head and neck. (It is not possible to homologate a forward-facing car seat for use before 15 months.)
6. Whenever a child is restrained with the vehicle belt (from 100 cm onwards), Isofix connectors—if available—are optional. This means installation is always possible even without Isofix.

## CHICCO SMART IDEA: **FIT-KIT** EASY FOR YOU. SAFE FOR THEM.

And in order to simplify the usage of the car seat Chicco developed the **Fit-Kit labels**:

Thanks to **easy readable indications** on the product, it is crystal clear how to choose the right product and how to use the car seat in each step, providing the perfect fit in **every stage**.

**Travel direction** (rear or forward facing)      **Child's restraint method** (integrated harness or vehicle belt)

**Car seat's type (homologation)**

**Reducer's usage**

# FEATURES OF CHICCO CAR SEAT

CHECK WHICH ARE AVAILABLE AMONG DIFFERENT MODELS.

## EASY BOARDING SYSTEM

Thanks to a rotative base is possible to move the seat toward parents (at 90°) so that, in case of a car with door lateral to the car seat, is easier to place the child in the car seat without effort for the back and without stress for the child. "Easy boarding system 90" allows to rotate from rear facing to parents facing and back, while "Easy boarding system 360" allows to rotate from parents facing to both rear facing and forward facing, a complete rotation.

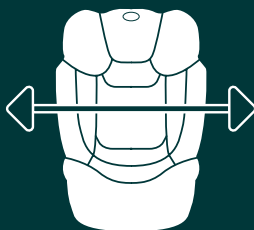

## EASY RECLINE SYSTEM

When the child needs relax the car seat can recline in multiple position and is also reduced the risk of head tilting. When the child want to see outside is quickly possible to change the reclination.

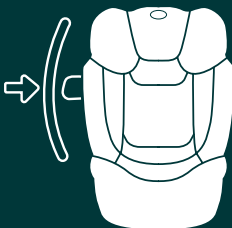

## HEADREST ADJUSTMENT

Have the head correctly placed on the headrest is important for the confort of the child and also to protect him in case of impact. With this feature parents can adjust the headrest position to follow every stage of the growth. When the car seat is used with 5 point harness system the headrest is adjusted simultaneously to the shoulder pads.

## SHOULDER SPACE ADJUSTMENT

The internal space of a car seat, designed to receive the baby, is required by the regulation depending on the range of homologation. But with the shoulder space adjustment, independent from the headrest, is possible to increase the space for shoulder over the minimum requirement to offer more confort to biggest childs only when needed.

## SIDE SAFETY SYSTEM

Lateral crashes are frequent, for this reason is important that, to be homologated ECE R 129, car seat pass not only frontal impact test but also lateral impact. To offer an additional protection in case of impact could be available an additional element that can be activated on the door side. if there is space in the car is recommended the usage of the additional side safety system.

## REDUCER

It's a removable accessory designed for the safety and the confort of the newborns. Helps to keep the head and the body in the correct position and to guarantee the correct air flow.

## AIR CIRCULATION SYSTEM

The holes on the shells allows a greater air flow so that during warm season reduce the warming up of the car seat and of the child inside.

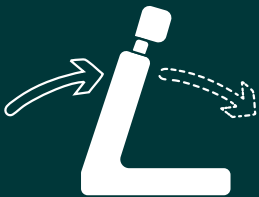

## BELT POSITIONER

When the child is restrained by vehicle belt, the belt positioner helps to keep the belt in the correct position in order to protect the child. Lap belt is kept in an optimal position, over child's pelvic bones, reducing the abdominal forces in case of frontal impact.

## SAFE PAD

When the child is restrained by vehicle belt, the safe pad offers additional chin and chest protection.

## FOLDABLE BACKREST

Thanks to the backrest foldability the backrest of the car seat can be folded so that it's easier to transfer it from one car to another and save space for storage.

## EXTRA REAR SAFETY

Travel rear facing protect the head and the neck of a child during an impact. (Consider that in a newborn the weight of the head is 25% of the total weight, while for an adult only 6%). It's strongly recommended to travel rear facing as much as possible, over the period required by law (until 15 months of child) but is important to check how the homologation of the car seat was done and until when is possible to use the car seat rear facing.

## ANTI-MISUSE SYSTEM

To better protect the child is mandatory to travel rear facing at least up to 15 months. In order to reduce the misuse the system block the rotation in forward facing before 15 months. In order to move forward facing is needed to activate the system for the 360 rotation.

## BAMBOO - SPECIAL FABRIC

Thanks to its softness, the natural bamboo fiber is particularly suitable for direct contact with the baby's delicate skin. Bamboo fabrics are also breathable and have a good ability to quickly absorb and dissipate moisture, helping to regulate the body temperature.

## FAST FIT SYSTEM

Insert a child in a car seat with harness system could be sometimes difficult. Thanks to innovative Fast-Fit system, after removing the child from the car seat, the shoulder pads remain open and the buckle hooks remain visible so that re-insert the child in the car seat will not be a problem anymore.

## ONE STEP SYSTEM

Helps to quickly detach the isofix connectors from the car, with just one hand, so that is easier move the car seat from one car to another.

# PRESTIGE LINE

---

The Prestige Line is the **Chicco Premium line** of car seats. This line is characterized by distinguishing technical features and a new look more aligned to the trends of the market in terms of colours, fabrics, premium details and new hangtag with more information to enhance the features of Chicco product line in the shop.

CODE 087100

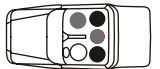

0m+

First-Seat Recline i-Size is the infant carrier for newborn ideal also for outdoor activities thanks to the **Easy Flat-Recline System**.

INFO

CHILD SIZE	AUTHORISED POSITION
40-87 cm  (no air-bag)	 
<p>● Authorised position with only 3 point vehicle belt ● Authorised position with Isofix connectors and support leg or only with 3 point vehicle belt</p>	

## EASY FLAT-RECLINE SYSTEM

- **3 reclining positions with one hand only** that can be used **in every situation**:

- In the car (with and without the base);
- On compatible Chicco strollers (see compatibility list at page 87);
- At home;
- On the airplane.

- The most reclined position of the backrest ensures maximum comfort for the newborn who is almost completely lying down.

1

2

3

0m+

# FIRST-SEAT RECLINE i-SIZE

## HOMOLOGATION

- It is homologated according to the last regulation ECE R129/03 for transporting newborns in the **car** from birth till around 15 months (40-87 cm / 13 kg max.).
- Homologated to be used with Chicco **strollers** (see compatibility list at page 87).
- Homologated for the use as **bouncer** according to the last regulation EN12790.
- Certified by TUV to be used also on **airplane** seat.

## FLEX-INSTALLATION

It is possible to install the car seat in two ways, always in the rear facing position:

- Using the "Full 360 i-Size base" with Isofix connectors and Support Leg (separated accessory see page 75).
- Using 3-point vehicle belt only.

## EASY-BOARDING SYSTEM

When installed on the Full 360 i-Size base (sold separately), the car seat can be rotated at 90°parent facing position to easily place the baby in the car seat with anti-misuse design to avoid forward facing.

## ONE-CLICK ATTACHMENT

When used in combination with the Full 360 i-Size base, it is easy and quick attach the infant carrier directly in rear facing position or at 90° and rotate it later.

## RESTRAINT SYSTEM

The baby is restrained by the 3-point harness system of the car seat for all the period of usage.

# FIRST-SEAT RECLINE i-SIZE

0m+

- **ENERGY-ABSORBER REDUCER**  
**40 up to 60 cm:** the reducer guarantees an extra comfort and protection to the newborns in all the trips. The use of the reducer is mandatory from 40 till 60 cm. The reducer has been developed with the **Chicco Research Center** to obtain a flat and ergonomic position of the newborn. The newborn posture (with energy-absorber reducer) has been tested and validated by a team of pediatricians\*.

The absence of shapes helps prevent the risk of plagiocephaly leaving the head free to move.

\*Study performed by Prof. Massimo Agosti, Insubria University, Director of Pediatric and Maternal department of Varese Hospital, and by Prof. Luana Nosetti, Insubria University, responsible for the regional SIDS center of Lombardy.

- **BAMBOO FIBER: SOFT AND BREATHABLE**   
**Headrest and reducer covered in bamboo fiber:** Thanks to its softness, the natural bamboo fiber is particularly suitable for direct contact with the baby's delicate skin. Bamboo fabrics are also breathable and have a good ability to quickly absorb and dissipate moisture, helping to regulate the body temperature.

- **EASY-EXTEND HEADREST SYSTEM**  
The headrest can be adjusted with **only one hand** at the same as the harness system of the car seat to follow the growth of the newborn till 87 cm.

0m+

# FIRST-SEAT RECLINE i-SIZE

## FULL OPTIONAL CANOPY

- The canopy has an **UV50+** coating to protect the baby from the sun.
- It is **water-repellent** and easy to clean.
- It can be adjusted independently from the handle.
- It has a zip that allows to further **extend the canopy** to ensure more privacy and **peek-a-book window** for a greater air flow.

## AIR VENTILATION SYSTEM

The holes on the internal sides and on the back of the backrest maximize the air flow.

## BOUNCER USAGE

The infant carrier can be used as bouncer in 3 reclination positions both in fixed and rocking mode. Homologation EN12790.

# FULLSEAT 360 i-SIZE

CODE 087190 - WITH BASE  
CODE 087189 - W/O BASE

FullSeat 360 i-Size is the continuity seat designed to last up to around 12 years, from 61 up to 150 cm and **it's ideal after the use of First-Seat Recline or Kory i-Size** in order create a sustainable **Modular System**.

CHILD SIZE	AUTHORISED POSITION
61-105 cm 	 
76-105 cm (max. 17,5 kg) (>15 months) 	 
100-150 cm 	 

● Authorised position with only 3 point vehicle belt  
 ● Authorised position with Isofix connectors and Support Leg

## i-SIZE HOMOLOGATION

FullSeat 360 i-Size, when used together with Full 360 i-Size base is homologated according to the latest regulation ECE R129/03 from **61 up to 105 cm**. The Full360 is compatible with Kory and First seat recline in order to create a full solution from birth up to 12 years. When used without the base it is homologated from 100 up 150 cm as booster seat with vehicle belt installation. In the range 100-150 cm it is homologated for the installation even without Isofix connectors.

## DOUBLE INSTALLATION

- **STEP 1:** for newborn and toddler on the Full 360 i-Size base
- **STEP 2:** for big kids without the base in the version of booster seat

# FULLSEAT 360 i-SIZE

3m+

## STEP 1 - FULLSEAT 360 i-SIZE FOR TODDLER (61-105 CM)

The car seat is installed using the **Full 360 i-Size base** and the child is restrained by the 5-point harness system.

- **ISOFIX SYSTEM**

Isofix base with Support Leg for a quick and safe installation with indicators of correct installation.

- **EXTRA-REAR SAFETY**

It's mandatory the position in rear facing up to 15 months but it's possible to keep the baby in rear facing position up to 105 cm (around 4 years) for more safety.

- **ENERGY-ABSORBER REDUCER**

The Energy-Absorber Reducer is designed to protect newborns by absorbing impact forces (safety) and supporting correct posture during growth (ergonomy) from 61 up to 75 cm.

- **FORWARD FACING INSTALLATION**

From 76 cm (min. 15 months) up to 105 cm (max. 17,5 kg) the car seat can be rotated forward facing always using the Full 360 i-Size base.

- **EASY-BOARDING SYSTEM 360°**

Allows to rotate the seat towards parents for an effortless baby placement and then to rotate it easily in rear or forward facing configuration depending on the age/size of the child **up to 105 cm** (360° rotation).

3m+

# FULLSEAT 360 i-SIZE

## EASY-RECLINE SYSTEM

The car seat can be reclined into **5 different positions** both in reward and forward facing for relax and socialization ensuring the best conform for all travels.

## STEP 2 - FULLSEAT 360 i-SIZE FOR BIG KIDS (100-150 CM)

## BOOSTER SEAT MODE

From 100 cm (around 3 year)

Remove the base, store the 5-point harness system and use **3-point vehicle belt** to restrain the child.

The car seat is installed in forward facing direction using optionally the Isofix connectors directly extracted from the structure of the car seat. In this configuration the car seat can be used **up to 150 cm (around 12 years)**.

## EASY-EXTEND HEADREST SYSTEM

The headrest can be adjusted in height following the child's grow.

(In the configuration with the base and 5-point harness system the headrest adjusts simultaneously with the harness system).

# FULLSEAT 360 i-SIZE

3m+

- **SIDE SAFETY SYSTEM**  
Integrated side protection + **additional lateral protection** that can be closed in case of little space between the car seat and the door.

- **AIR VERTILATION SYSTEM**  
The holes on the sides and on the back of the car seat permit a greater air flow.

- **BAMBOO FIBER: SOFT AND BREATHABLE**  
**Headrest and reducer covered in bamboo fiber:** Thanks to its softness, the natural bamboo fiber is particularly suitable for direct contact with the baby's delicate skin.  
Bamboo fabrics are also breathable and have a good ability to quickly absorb and dissipate moisture, helping to regulate the body temperature.

# UNICO EVO i-SIZE

CODE 087030 - CLASSIC  
CODE 087031 - AIR

Unico Evo i-Size is homologated according to the latest ECE R129/04 regulation for transporting children with a height between 40 and 150 cm, an all in one car seat from birth up to 12 years.

CHILD SIZE	AUTHORISED POSITION
40-87 cm	 ISOFIX TOP TETHER
76-105 cm (max. 18 kg)	 ISOFIX TOP TETHER
100-150 cm	 
<p>● Authorised position with only 3 point vehicle belt</p>	

## i-SIZE HOMOLOGATION

Homologated according to ECE R129/04. It's homologated from 40 cm up to 150 cm in different configurations:

- From 40 to 87 cm in rearward facing with 5-point harness system
- From 76 to 105 cm in forward facing with 5-point harness system
- From 100 to 150 cm in forward facing with 3-point vehicle belt.

From 100 cm till 150 cm (child's height) it is homologated for the installation using 3-point vehicle belt even without Isofix connectors.

## EASY-BOARDING SYSTEM 90°

Thanks to the rotating system it is possible to easily pass from rearward facing to forward facing position and use 90° parents facing position for an easy baby placement when is installed in rearward facing.

## ISOFIX SYSTEM

Isofix connectors and Top Tether for the installation from 40 to 105 cm with 5-point harness system.

# UNICO EVO i-SIZE

0m+

- **40 CM - 87 CM**

From 40 up to 87 cm the child is restrained by 5-point harness system. The car seat is installed rearward facing using Isofix connectors and Top Tether (**Isofix System**).

- **ENERGY-ABSORBER REDUCER**

The soft reducer cushion ensures little children and provides extra comfort for all the trips. It's homologated for the use from 40 up to 60 cm.

- **76 CM - 105 CM**

From 76 cm (min. 15 months) up to 105 cm (max. 18 kg) the child is restrained by 5-point harness system. The car seat can be rotated forward facing using Isofix connectors and Top Tether (**Isofix System**).

0m+

# UNICO EVO i-SIZE

## 100 CM - 150 CM

From 100 cm (around 3 year) it's possible to store the 5- point harness system and the child is restrained using 3-point vehicle belt. The car seat is installed in forward facing direction; the usage of Isofix connectors is optional but Top Tether is not necessary anymore. In this configuration the car seat can be used up to 150 cm (around 12 years).

## EASY-EXTEND HEADREST SYSTEM

The headrest can be adjusted in height simultaneously with the 5-point harness system to perfectly follow the child's growth. It can be regulated also alone when the 5-point harness system is not present anymore.

## EASY-RECLINE SYSTEM

The car seat can be reclined into **5 different positions** both in reward and forward facing for relax and socialization ensuring the best conform for all travels.

From 4 to 30 lbs

The KeyFit® Max ClearTex® Extended-Use Infant Car Seat offers more headrest height and legroom to comfortably maximize rear-facing use. Top-rated, innovative safety features make the KeyFit® Max ClearTex® the easiest infant car seat to install and use correctly. Featuring ClearTex® flame retardant-free materials, KeyFit® Max ClearTex® is GREENGUARD Gold Certified for low chemical emissions, contributing to healthier air quality around baby.

Certified for low chemical emissions, contributing to healthier air quality around baby.

From 4 to 30 lbs

Homologated according to the American Standards

CODE 08 087111 180 070

**LEGEND**

8 058664 182558

- EXTENDED USE**  
It features a 5-position, Easy-Extend Headrest System that raises with the harness to accommodate growth up to 32" tall, allowing to keep the baby in the same rear-facing car seat for longer. The integrated anti-rebound bar provides added stability and extended legroom.
- EASY TO INSTALL**  
Easy to install thanks to the premium LATCH connectors and a SuperCinch® force-multiplying tightener that helps achieve a secure fit without efforts. One-hand ReclineSure™ spring-loaded levelling foot and RideRight™ bubble levels to reach the correct angle. LockSure® steel-reinforced belt system for a secure fit with the vehicle belt.
- TRAVEL SYSTEM PERFORMANCE**  
One-hand, click-in attachment to fix it on Chicco strollers (Bravo, Viaro, Corso and Bravino).

# FIT360 CLEARTEX

CODE 087216

The Fit360® ClearTex® Rotating Convertible Car Seat is the all-around easiest-to-use car seat, designed to make every day travel easier. The 360° one-hand rotation provides an optimal experience to comfortably secure your child in the seat and remove them when your ride is complete.

No added chemicals - ClearTex® fabric extends to all softgoods that surround the child.

From  
5 to 65  
lbs

Homologated according to the American Standards

## INSTALL WITH CONFIDENCE

LeverLock® self-tensioning lock system applies the correct amount of belt-locking tension with minimal effort for a secure installation. One-time installation provides reliable stability over time, from rear-facing through forward-facing use. Two RideRight™ bubble level-indicators and 6-position ReclineSure™ leveling system provide improved vehicle fit and child comfort.

## 360° ONE HAND ROTATION

360° one-hand rotation from face-to-face for easy loading/unloading to rear-facing mode (4-40 lbs.) or forward-facing mode (26.5-65 lbs.).

## EVERYDAY PROTECTION

Fit360® includes a steel-reinforced shell and sculpted EPP energy-managing foam. A removable body support for newborns (4-11 lbs.) makes the Fit360® ready to go from day one.

## EVERYDAY EASE

The Quick-Secure Harness System features a 15-position, easy-adjust headrest that simultaneously adjusts the harness height. The flex-forward crotch buckle stays out of the way for easy child loading and harness pockets keep straps and buckles contained until ready for use. The quick-secure magnetic chest clip offers easy in and out without the fuss.

# MYSA - STROLLER

CODE 087158

The new Mysa stroller incorporates a multi awarded premium design and a full wellness experience for both parents and babies. Homologated from birth, the seat can be configured in both forward and rearward facing and it's fully reclinable. Its wide seat, premium materials and cushioned wheels give babies all the comfort they need, while being the stroller that doesn't go unnoticed. The wellness experience continues with additional comfort elements such as the integrated mosquito net and the cozy Cushy Hug insert.

22 Kg

## HOMOLOGATED FROM BIRTH

The Mysa stroller can be used from birth up to 4 years, thanks to its one-hand fully reclinable seat. You can easily change the seat facing to have the baby looking at you and adjust both handle and legrest. You can easily fold the stroller with just one hand, revealing an extremely compact and light product (only 9 kg).

## COMFORTABLE FOR BABIES

Mysa meets all the comfort that babies need: a wide seat fully reclinable for comfortable outdoor naps, integrated mosquito net, XL extensible canopy with peak-a-boo window and UV50+ and water-resistant treatments.

## PRACTICAL AND COMFORTABLE FOR PARENTS

Mysa guarantees an agile driving experience thanks to the large wheels made in resistant ER material and ball bearings and shock absorbers in all four wheels; the best practicality is ensured with the roomy and accessible basket, the easy fastening with the 5-point magnetic buckle and the stay-in-place shoulder pads, so you'll never lose them again!

## AWARDED PREMIUM LOOK

The Mysa design has been realized to stand out in elegance and style. It's provided with anodized coloured tubes, coated fabrics to give you the look you love, combined with the utmost benefits. These characteristics has been awarded at the IF Product Design Awards and the Red Dot Design Awards.

## FIRST-SEAT RECLINE

The car seat with three reclining positions that can be used in every situation: in the car (with or without the base), on compatible Chicco strollers, at home and on the airplane.

### FLAT RECLINE SYSTEM

The most reclined position of the backrest ensures maximum comfort for the newborn who is almost completely lying down.

### FLEX INSTALLATION

It is possible to install the car seat in two ways, always in the rear facing position:

Using the "Full 360 i-Size base" with Isofix connectors and Support Leg (separated accessory).

Using 3-point vehicle belt only.

### EASY BOARDING SYSTEM

When installed on the Full 360 i-Size base (sold separately), the car seat can be rotated at 90°parent facing position to easily place the baby in the car seat.

One touch can make all the difference! Bellagio stroller has been designed to accommodate the dynamic lifestyle of new parents, our stroller allows them to handle everything – from folding to adjusting the backrest – effortlessly with just one gesture, ensuring the utmost functionality. Engineered with the innovative OneTouch folding system and crafted with meticulous care, Bellagio seamlessly combines practicality for parents and a cozy environment for babies. Experience the perfect harmony of convenience and comfort, all at your fingertips.

one  
touch

## ONE TOUCH CHANGES EVERYTHING

Thanks to the OneTouch technology, it can be folded with just one gesture, allowing parents to have a free hand or to keep the baby in their arms: just on click on the back of the seat and the stroller will surprisingly fold itself! Bellagio is the first modular stroller with a self folding mechanism in both directions. When folded it's self-standing and features a convenient carry handle.

## HOMOLOGATED FROM BIRTH

Bellagio stroller is homologated from birth until 22 kg. The seat is easily reversible, the backrest fully reclines in both configurations and it is adjustable in 4 different positions using just one hand.

**NEW  
RUBBER  
WHEELS**

## PLEASANT DRIVE

The best maneuverability is guaranteed by high performing big wheels, ball bearings and shock absorbers. The ball bearings are present also on the pivoting system. Bellagio wheels are made in TPE, a special rubber which not only give a great look to the stroller, but they also guarantee the best performances on any terrain and durability. Seamless and stable strolls are always ensured thanks to the special wheel pattern designed to minimize vibrations, both for the child on the seat and for the parent driving.

## EASY AND SECURE COMFORT

The welcoming and well-padded seat provides a cozy environment for the baby, and the magnetic buckle makes fastening the seat belts quick and easy. Never lose shoulder pads again, thanks to the practical «Stay in place» system.

## OBSERVING THE WORLD FROM ABOVE

Higher seat to bring the child closer and encourage interaction with the parent.

## XL PROTECTIVE CANOPY

The protective and extendable canopy is equipped with UV50+ and water-resistant treatments. The canopy features a mesh window to always keep eye contact with the baby.

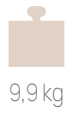

## UNFORGETTABLE DESIGN

Prepare to be enchanted by Bellagio's unforgettable design: from luxury anodized tubes, to shiny Chicco metal badges and stylish coated fabrics, every detail has been carefully crafted to make a lasting impression.

# SEETY - STROLLER

CODE 087097

0m+

Seety stroller is born to be city friendly. What distinguishes this product is its lightness, the greatest feature to have when strolling around town for the best practicality. Lightness is not all – Seety stroller stands out for being incredibly smart. All its features have been thought to give parents a practical stroller, complete with all comforts, that can be accessible and extremely easy to use.

## CITY FRIENDLY

It's surprisingly lightweight, only 7 kg, and amazingly handy and agile, thanks to the fully equipped wheels with shock absorbers and ball bearings on all wheels. It can be easily folded with just one hand and it's easy and practical to transport, thanks to the integrated carry handle. Once closed, it stands alone and takes up very little space, ideal to be stored anywhere.

## YOUR VERY FIRST ALLY

Seety is incredibly comfortable for the baby thanks to the wide and padded seat and the fully reclinable backrest and adjustable leg rest. The seat is easily reversible from parent's view, ideal during the first 6 months, to street view, to let the baby look to the world around him. The large canopy offers utmost protection against UV50+ rays and rain, and the mesh peak-a-boo window lets parents to always keep eye contact with the child.

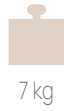

## A CITY TREND

Seety's style is modern, thanks to its monochrome look. The coloured tubes are in perfect match with the fabrics, giving coherence to the stroller.

# ONE4EVER LOUNGE

CODE 087109

One4Ever Lounge is a self-folding light modular stroller, designed to effortlessly accompany the baby throughout their growth. It offers simplicity and practicality thanks to its customizable configurations, that meet the needs of both parents and babies. It has a reversible seat and is homologated from birth till 22 kgs. This evolutive stroller has an adjustable backrest in height, to flawlessly adapt to the baby's growth. One4Ever Lounge is also extremely easy to fold and unfold, with just one click. The soft and cocooning seat embraces the baby from the first days; the headrest area is made by natural bamboo fabric, which gives the stroller a fresher feel and more comfort for the baby. Fully accessorized wheels with shock absorbers and ball bearings guarantee the greatest manoeuvrability. In addition to being practical, it stands out for its premium features: refined coloured anodized tubes, high-end finishes, and fabrics.

## EVOLUTIVE BACKREST

The height of the backrest is adjustable in three positions to follow the baby's growth, with a maximum increment of 11 cm. Practical webbing on the back to adjust the backrest.

## SELF-FOLDING

The stroller will fold itself with just one fast movement and remains self-standing after folding.

# ONE4EVER LOUNGE

0m+

## NATURAL BAMBOO FABRICS

The headrest area, in contact with the baby's face, is made by natural bamboo fabric. Bamboo is a breathable material that permits to absorb the body humidity of the baby. Thanks to its softness it's a very suitable material for staying in contact with babies' delicate skin.

## BAMBOO

## FROM BIRTH TILL 22 KG

The backrest is fully reclinable and adjustable in both front and rearward positions. The leg rest is adjustable too, offering maximum comfort to the baby. The seat is homologated up to 22kg (in forward facing configuration).

22 Kg

## PREMIUM FINISHINGS

Anodized tubes, premium coated fabrics on bumper bar along with coloured zippers and soft touch fabrics, contribute to create a stylish and iconic design.

- COMFORT FOR BABIES AND PARENTS**  
 The seat has big lateral flaps to better contain the baby and enhance comfort. Chicco personalized magnetic buckle makes fastening the seat belts quick and easy.

- PROTECTIVE CANOPY**  
 The canopy, with an extendable segment and additional visor, ensures the best protection for the baby. It is also treated with UV50+ protection and water-resistant treatments.

- PERFORMING WHEELS**  
 Fully accessorized wheels with shock absorbers and ball bearings. The front ones can be used fixed or in a swivelling mode; the pivoting system also has ball bearings.

- TRAVEL SYSTEM**  
 One4Ever Lounge can be easily transformed into a travel system with Kory and First-Seat Recline car seats.

Designed for effortless travel, Aero-WE offers exceptional compactness along with comfort and reliability. Its lightweight frame and one-hand folding mechanism make it ideal for families on the go, easily fitting into overhead compartments on planes\* and requiring minimal storage space. Transformable into a complete travel system, it's ideal for adventures around the world.

\*Always check airline dimension guidelines.

## COMPACTNESS

Aero-WE is designed with travel in mind, offering an ultra-compact fold that makes it easy to take anywhere, even during flights. With Aero-WE it has never been so simple to travel with your baby.

## SUPER EASY ONE HAND FOLDING

Aero-WE is easy to close with just one hand, thanks to its easy-folding mechanism. With just a simple motion, the stroller folds smoothly, ideal for busy days and travel moments. Once folded the built-in carry handle allows effortless transportation.

## TRAVEL SYSTEM

The stroller readily converts into a complete travel system, supporting your journeys from day one, until the baby reaches 22 kg. Compatible with Kory and First-Seat Recline car seats, it offers a secure and seamless travel experience, combining safety and convenience.

# AERO-WE

# DOLOMITI

CODE 087163

Dolomiti, approved from birth up to 22 kg, is the perfect lightweight stroller to face any challenge, from city streets to off-road routes. Equipped with large rubber wheels with coloured tread, ball bearings and adjustable suspensions, it allows for agile and smooth driving on all terrains. High driving performance combined perfectly with a seat, equipped with a 3D mesh insert for maximum breathability, which guarantees maximum comfort for the baby in every situation of use. Iconic and innovative design with colored anodized tubes for a modern and attractive look.

NEW

## FULLY EQUIPPED RUBBER WHEELS

Big rubber wheels with adjustable shock absorbers for the best driving on any terrain. Both front and rear wheels, and also the pivoting system, come with ball bearings. The front wheels can be used in a swivelling way or fixed. The coloured wheels' tyre perfectly match the anodized tube and the other coloured details.

## COMFORTABLE TRIPS

Wide and well padded seat to welcome babies. The headrest area is made in 3D mesh to increase the comfort and to guarantee the best breathability. Practical magnetic buckle to quickly fasten the seat belts and adjustable shoulder belts in 2 positions to follow the baby's growth. Stay in place should pads to always keep the right position.

## WELL-BEING AND PROTECTION

Seat homologated from birth till 22 kg; the backrest is adjustable with only one hand in endless positions. Extra long seat in lie down configuration. The canopy is fully extensible to guarantee the best protection: it includes the WR and UV50+ protection treatments. Mesh inserts on lateral side to ensure the right air flow.

## LIGHT AND PRACTICAL

One hand fast folding to simplify the everyday's life. When folded it is compact and easy to carry using the bumper bar. It weighs only 7,9 kg.

## ATTENTION TO DETAILS

Nice and premium soft touch fabrics emphasized by luxury details, like coloured Chicco logos and insert in coated fabric. Bumper bar and handles are in coated fabric as well for the best feeling and practicality. Coloured anodized tubes in match with plastic components and wheels' tyres.

## SUPER ACCESSORIZED

Dolomiti comes with leg cover and rain cover to protect the baby and to guarantee peaceful walks also on colder days.

# AIRY HIP FIT

CODE 087188

0m+

Airy Hip Fit carrier is the ergonomic and multifunctional baby carrier with a detachable base support ideal to satisfy all baby wearing's needs. It's made by two elements an inflatable base and a baby carrier – that can be used together or separately giving life to 3 different products and multiple baby wearing options.

NEW

## AIRY HIP FIT CARRIER

The Airy Hip Fit Carrier consists in a panel plus a base support.

The base guarantees a comfortable and natural sitting position for the baby and helps distribute child's weight around the parent's waist.

## AIRY HIP FIT BASE

The inflatable base, without the panel, works like an extension of parents' hip.

It is ideal to hold the baby with one hand only helping parents to keep the right posture.

## BABY CARRIER

Without the base, the panel is a smart and traditional baby carrier ideal for all the needs on-the-go.

In this configuration, the additional knit belts help distributing the baby's weight and offer more lumbar support to the parent (Patent Pending).

0m+

# AIRY HIP FIT

## MULTI-POSITION

Airy Hip Fit carrier offers many carrying positions to satisfy different baby wearing needs.

**3m+**  
**PARENTS'**  
**FACING**

**6m+**  
**FORWARD**  
**FACING**

**BACKPACK**

### FABRICS

Airy Hip Fit is made by innovative 3D flyknit mesh, a breathable and supportive material, ideal to stay in contact with the baby.

### BACKREST REGULATIONS

The backrest has an adjustable regulation, to fit the baby as it grows.

### HEADREST REGULATIONS

The headrest can be regulated both in height and length, for more comfort and support, at every age.

# AIRY HIP FIT BASE

0m+

The Airy Hip Fit Base can be used starting from the very first days in the newborn position as a practical support any time you hold the baby in your arms, also during feeding, and starting from 3 months in a raised position, parent facing, forward facing or hip position depending on your preference.

0+

**NEWBORN POSITION**

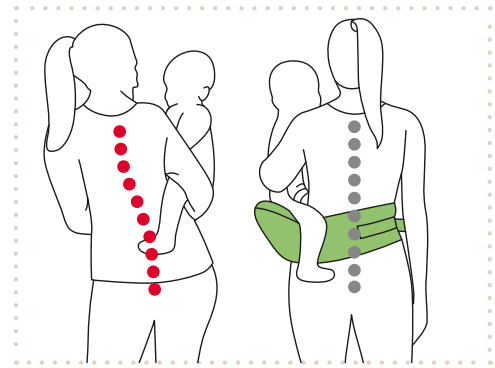

3m+

**PARENTS' FACING**

3m+

**HIP POSITION**

By using the Airy Hip Fit base, the baby's weight will be carried by your hips whilst the baby sits on a comfortable seat. In this way your spine remains in the right natural position and pressure is alleviated.

## INFLATABLE

The base and the belt are inflatable, thanks to an air pump in the center. The air flow to the belt, gives maximum support and comfort for parents.

## SIDE POCKET

Practical side pocket to store the phone or other small essentials to keep on-the-go.

# OFFER STRUCTURE CRIBS AND TRAVEL COTS

---

The sleeping moment is critical in the first months of baby's life, in which he has to regulate the wake-sleep rhythm.

Experts recommend to let the baby sleep in his own space and never in the parents' bed because it could be dangerous.

Moreover, during the first few months of baby's life, the crib is better than the playard because a more contained space makes the baby feel safer and protected.

It is recommended to place the crib in the parents' room as close as possible to their bed.

The baby close to mom feels protected and safe; at the same time mom sleeps more peacefully and she is more comfortable in breastfeeding or in managing the frequent awakenings of the baby.

## **COSLEEPING'S BENEFITS:**

It helps the baby to regulate the sleep-wake rhythm.

It makes breastfeeding easier for mom.

It helps parents in being peaceful and the baby in feeling safe.

It strengthens the bonding between baby and parents and helps the baby to grow self-confident and more friendly.

Sleeping close to parents (but not in the same bed) reduces the risk of SIDS.

## **CHICCO NEXT2ME RANGE IS CHARACTERIZED BY:**

1- Side panel to allow easy access to the baby.

2- Attachment system to parents' bed, simple and safe, adapting to different bed types, included those with drawer.

3- Adjustable height.

4- 2 modes: bedside crib or standard crib.

# CHICCO NEXT2ME TWINS

## CO-SLEEPING CRIB FOR TWINS

The first Chicco co-sleeping crib designed for twins. With Chicco Next2Me Twins, also parents of 2 twins can enjoy the benefits of a co-sleeping cot and each baby will have his own space to sleep, in accordance with safe sleeping rules.

CODE 06 087077 680 000

"The crib with the lowered side shall only be used when fixed to the adult bed in accordance with the instructions for use."

- **THE CO-SLEEPING CRIB FOR TWINS**  
Chicco Next2Me Twins is the best sleeping solution for twins, from birth up to 6 months.
- **MINIMAL FOOTPRINT**  
Chicco Next2Me Twins takes up less space than having 2 cots.
- **SEE-THROUGH BARRIER**  
Chicco Next2Me Twins is equipped with a dividing see-through barrier with a mesh insert which helps twins to see and feel each other.
- **ONE-HAND SLIDING BARRIER**  
The barrier slides up and down so parents can open and close it even when the crib is attached to bed.

## COSLEEPING COT

The ultimate 3 in 1 sleeptime solution that allows parents to use cosleeping as long as they wish, up to 4 years, ensuring a better sleep for parents and baby with total safety thanks to the patented system. In just one product parents can find 3 different functionalities: cosleeping cot up to 4 years, traditional cot and floor bed for toddlers.

"The cot with the lowered side can only be used when fixed to the adult bed in accordance with the instructions for use."

### • COSLEEPING UP TO 4 YEARS

Extended dimensions and one hand easy opening and closing barrier to use as a cosleeping solution for longer than standard cosleeper in the market.

### • PATENTED SYSTEM

It prevents the side barrier from remaining lowered when the cot is not fully attached to the parents' bed.

### • FLOOR BED FOR TODDLERS

Just removing the feet and the lateral barrier, toddlers can easily go in and out from their bed, stimulating their autonomy.

0m+

# CHICCO NEXT2ME FOREVER

## MANOEUVRABILITY

4 swivelling wheels with brakes to move it freely.

## AIR FLOW

All-sides mesh windows guarantee extra ventilation of the cot.

## ADJUSTABLE IN HEIGHT

11 levels to fit with different beds.

## VERSATILE

It adapts to beds with drawers thanks to the foldable feet.

## TECHNICAL INFORMATION

### ACCESSORIES INCLUDED:

- Transpirant mattress
- Harness kit for attaching to bed

CODE 087041

## COSLEEPING CRIB

Chicco Next2Me Magic Evo is the new solution for cosleeping. Its distinguishing feature is the rocking mode, which can be activated with a simple gesture and allows you to gently rock your baby. The crib is practical for parents to use thanks to the sliding barrier that opens with one hand and the 4 swivel wheels that make it easy to move around the house. It also comes with 2 mesh windows and a mattress with 3D mesh that enhance the passage of air.

"The crib with the lowered side shall only be used when fixed to the adult bed in accordance with the instructions for use."

### ONE-HAND OPENING

Quick and easy opening thanks to the sliding barrier that opens and closes just by pressing the button.

### AIR CIRCULATION

The 3D mesh mattress and 2 mesh windows allow your baby to have cool and peaceful sleeps.

### MANOEUVRABILITY

Thanks to the 4 swivel wheels with brakes, you can move the crib around the house and have the baby next to you every time you want.

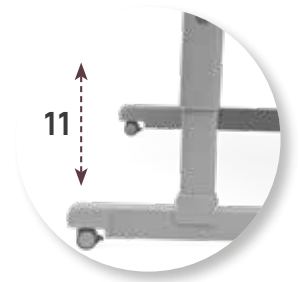

# CHICCO NEXT2ME MAGIC EVO

0m+

## HEIGHT ADJUSTABLE

It comes with 11 height levels to fit different types of beds.

## FOLDABLE FEET

The feet can be folded to easily install the crib to beds with storage compartment.

## ROCKING MODE

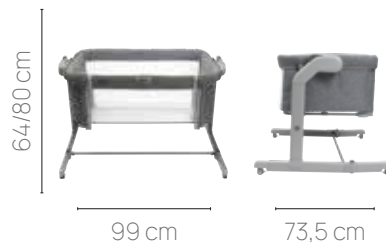

Easy to activate, just with one button. When the crib is used in stand alone configuration, you can use the rocking mode to help your baby to sleep.

# MOMMY POD 4 IN 1

CODE 087176

The next-generation sleep reducer! Designed not just for sweet dreams but for active play, it's the ultimate upgrade for baby's development. Featuring a toybar for endless fun and a revolutionary support that helps little ones lift their head during tummy time—especially in those precious early months.

NEW

0-1 m

1-3 m

0-8 m

# MOMMY POD 4 IN 1

0m+

- **GROWS WITH YOUR BABY - FOR NAPTIME**

Mommy Pod 4in1 is perfect from day one: with both ends closed, it creates a cozy space for newborns. As the baby grows, the lower end can be opened for continued use up to 3 months.

- **VERSATILE - FOR TUMMY TIME AND PLAYTIME**

By removing one or both ends, Mommy Pod transforms into a soft mat, ideal for the first play sessions and Tummy Time – a beneficial activity from the very beginning that supports motor development. For added support during Tummy Time, especially for smaller babies, a dedicated cylindrical cushion can be placed underneath the Pod to gently lift the baby's shoulders and chest—like the use of a rolled-up towel—making the experience more comfortable and effective.

- **WITH THE TOYBAR - A MINI PLAY GYM ON THE FLOOR**

With the addition of the toy bar (included), Mommy Pod becomes a playful mini gym: little ones can look at, reach for, and interact with hanging toys, encouraging curiosity and hand-eye coordination. The double-sided pendants feature a colorful side and a high-contrast side in black, white, and red—ideal for stimulating visual development in newborns during their earliest weeks.

- **OPTIMAL AIRFLOW FOR MAXIMUM COMFORT**

Cotton mesh panels in the most sensitive areas encourage proper air circulation, helping to keep your baby cool and dry—even on warmer days.

- **PRACTICAL ANTI-PEE PROTECTION**

A water-resistant insert positioned at the bottom of Mommy Pod helps protect the surface from accidents, keeping the pod clean and dry at all times.

- **ORGANIC COTTON REMOVABLE AND WASHABLE COVER**

The soft organic cotton cover can be removed and machine washed at 30°C to ensure optimal hygiene at all times.

0m+

# MOMMY POD 4 IN 1

## ENHANCED ERGONOMICS

Mommy Pod 4in1 features an adjustable support cylinder that can be placed under the reducer in two different positions. Especially recommended for babies with motor development challenges, the cylinder promotes proper posture.

The open, unshaped head area allows natural head movement—important for reducing the risk of plagiocephaly and managing gastroesophageal reflux.

Additionally, the differentiated padding between the head and torso areas supports healthy airway alignment and overall comfort.

# MOMMY POD 3 IN 1

CODE 087166

0m+

Mommy Pod 3in1 is the innovative coat reducer that offers babies a cosy environment to rest and discover the world with their first activities. Created in collaboration with the Chicco Research Center, Mommy Pod 3in1 can be used as a coat reducer from birth to 3 months, to guarantee a comfortable space inside cots from day one. Simply remove one or both ends to transform it into a practical accessory for playtime and tummy time.

0-1 m

1-3 m

0-8 m

0m+

# MOMMY POD 3 IN 1

- **GROWING TOGETHER WITH THE BABY - FOR BEDTIME**

Mommy Pod 3in1 can be used with both ends closed during the baby's first month of life. Thereafter, the lower end can be removed for continued use up to 3 months.

- **VERSATILE - FOR TUMMY TIME AND PLAYTIME**

Simply remove one or both ends to transform Mommy Pod into a mat for the first moments of play, where you can also practice Tummy Time. This practice, recommended from the earliest days, is real gymnastics for the baby!

- **EXCELLENT AIR CIRCULATION**

Mesh cotton inserts in the most delicate areas promote air flow and help prevent sweat, even on hot days.

- **ANTI-PEE PROTECTION**

The special impermeable fabric insert at the lower part of the product helps prevent Mommy Pod from getting wet or dirty.

- **ORGANIC COTTON REMOVABLE AND WASHABLE COVER**

The soft organic cotton cover can be removed and machine washed at 30°C to ensure optimal hygiene at all times.

- **MAXIMUM ERGONOMICS**

Mommy Pod 3in1 includes a cylinder that can be inserted under the reducer and adjusted to 2 different positions. The use of the cylinder is recommended in the case of pathological children with altered motor development. The absence of specific shapes in the head area leaves the head free to move, which is essential in cases of gastro-oesophageal reflux and reduces the risk of plagiocephaly. Differentiated padding between the head and trunk area ensures the correct alignment of the airways.

# MERAVIGLIA

CODE 087149

Meraviglia is the life long solution from birth up to 99 years old. Made with FSC certified wood and a clean modern design, Meraviglia fits into every home environment: in the kitchen, in the living room or in your child bedroom.

- **ALL IN 1**  
In just one purchase you can have 4 different products: recliner, highchair, baby chair and adult chair.

- **NO TOOLS NEEDED TO CONVERT IT!**  
Thanks to its modular design and the included accessories, you can easily transform it without tools: one simple movement and the chair changes its configuration! The adjustable seat and step follow your child's growth, always ensuring an ergonomic posture.

- **RECLINER (0-6 months)**  
With its reclining backrest, the cocooning design and the softgood included, Meraviglia is designed to be used from birth. The recliner configuration offers 2 different reclining positions of the backrest: a completely reclined position for newborns and a comfier seated position when the baby grows.

# MERAVIGLIA

0m+

## HIGHCHAIR (6-36 months)

Meraviglia includes a crotch and a tray so it can be converted into a highchair.

## CHAIR (3 years-110 kg)

From the age of 3, your child will be able to get in and out of the chair completely independently, thanks to the adjustable step that adapts to his height. This helps to develop your child's independence and confidence, making Meraviglia not just a highchair, but a true ally in their growth.

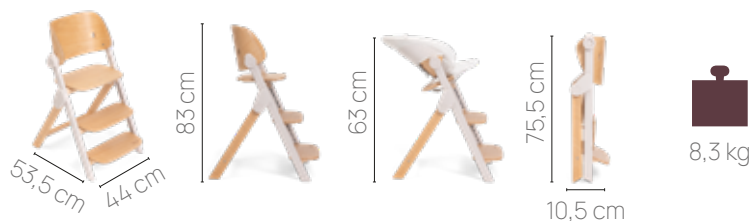

## DURABLE AND SUSTAINABLE

Meraviglia is designed with future generations in mind. Made of FSC-certified beech wood, Meraviglia is made to last and accompany you for a lifetime. With an elegant design that blends perfectly into any environment, from the kitchen to the living room to the bedroom, it combines quality, sustainability and style.

CODE 05 079098 560 710

**TEDDY**

Chicco juvenile keeps working on the continuous evolution of children's safety regulations, which in Europe regulate the design and production of nursery products. The constant technological development may therefore oblige us to modify our products during the period of validity of the catalogue.

The details and indications provided are therefore non-binding. Furthermore, due to printing process, colours and fabric might result different compared to the real items.

Availability of the products in this catalogue is subject, at all times, to our manufacturing capacity. Regular supply of products is therefore dependant on manufacturing capacities.
